## Safe Testing Table

### UNA TECH, Safe laboratory & Safe Research

Safe Testing Table is designed and built to create safe laboratory environment and ensure convenience and usability.

\* SAFEZON Safe Reagent Storage is the only existing reagent cabinet which can with stand against earthquake of Richter Scale Magnitude 7.0. (Certified by KIMM and SGS)

PPS Excellent Product No. 2011136  
Patent No. 10-0975859  
Patent No. 10-1081838  
Patent No. 10-1111524  
Patent No. 10-1167891  
Patent No. 10-1190095  
Utility No. 20-0450066

## Safe Testing table

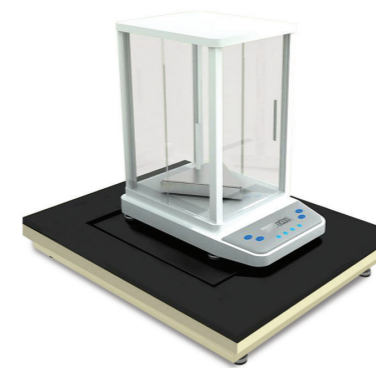

Seismic-Resistant Measuring Instrument and Seismic-Resistant Testing Table protect the laboratory apparatus from external impact or vibration and ensure a precise measurement and reliable testing result.

1500 × 750 × 1850

\* **SZ-TH03S (L)**  
1800 × 750 × 1850

## Features of Product

### Durability and Versatility

- Strong table structure prevents reagent bottles from overturning or falling.
- Reagents can be easily classified, stored and managed.
- High quality table-plate is specially designed for test-purpose.
- Slide-type shelves enables user to easily put in/ take out reagents.
- Sink and water tap is specially designed for test-purpose.
- Various sizes of laboratory apparatus can be dried and stored.
- Optimized laboratory environment can be created for safety and convenience.

# Safe Testing table

UNA TECH,  
Safe laboratory & Safe Research

## Safezon

Convenience and Usability

- Reagent bottle organizer (Patent Registered)
- Multiple sliding type movable apparatus (Patent Registered)
- Seismic-Resistant testing table (Patent Registered)
- Reagent bottle organizing hanger (Utility Model)
- Advanced chemical resistant phenolic laminate table plate

### Options

Laboratory apparatus drying rack (20p, 30p, 40p, 50p)  
Sink (SUS or P.P. sink bowl)

※ Dimension or specification is subject to change for better performance.
